

USCIS Request for Evidence (RFE) Response

Petition: I-129 (H-1B Specialty Occupation)

Petitioner: TechWave Solutions, Inc.

Beneficiary: Rina Deshmukh

Receipt Number: EAC2315678490

Date: April 4, 2024

Subject: Response to RFE - Educational Mismatch

To Whom It May Concern,

This letter serves as our formal response to the Request for Evidence issued on March 15, 2024, concerning the petition for Rina Deshmukh under the H-1B Specialty Occupation classification. USCIS raised concerns regarding the educational qualifications of the beneficiary, citing a mismatch between the job requirements and the beneficiary's degree in Electrical Engineering.

Response to RFE Issue:

****Concern:**** The position requires a degree in Computer Science or a closely related field, but the beneficiary holds a Bachelor of Engineering in Electrical Engineering.

****Response:****

- We have obtained an educational equivalency evaluation from ABC Credential Services, which concludes that the coursework completed by the beneficiary, including Programming in C, Data Structures, and Database Systems, is substantially equivalent to a U.S. bachelor's degree in Computer Science.
- The beneficiary has completed certified postgraduate coursework and certifications in full-stack development, SQL, and cloud computing, which are directly relevant to the duties of the offered

position.

- Enclosed are transcripts, course descriptions, and certification proof demonstrating a strong foundation in software development and systems analysis.

Duties Alignment:

The position of Software Developer involves duties such as designing APIs, writing server-side code, and integrating databases all of which fall within the scope of the beneficiary's skill set. We have enclosed:

- A detailed list of job responsibilities
- Comparison table of educational curriculum vs. job requirements
- An expert opinion letter from Dr. Andrew Simmons, Professor of Computer Science at XYZ University, validating that the beneficiary's education and experience meet the job's specialized knowledge requirements.

Supporting Documents:

1. Credential Evaluation Report
2. Transcripts and Course Descriptions
3. Certification Copies
4. Expert Opinion Letter
5. Position Description and Job Duties

Based on the evidence provided, we respectfully request that this petition be approved.

Sincerely,

HR Department

TechWave Solutions, Inc.
